Bethesda Hospital News: We are thankful to God that the Covid-19 pandemic is finally fading in Indonesia, and the heavy burden on the healthcare system is easing. Cases at Bethesda have decreased dramatically. In my last newsletter, I shared that the Bethesda internal medicine specialist for the last 5 years had finished his term of service and resigned. In February, Dr. Lianda, the pediatric specialist serving at Bethesda for the last several years, also finished her term of service and resigned. Three candidates are currently in training to fill these positions. However, they will not be finished with their training programs for several more years. Significant efforts have been made to find interim replacements for these positions. Until this time, God has not granted our prayers with replacement doctors. Operational income has dropped dramatically, and soon the hospital will no longer meet government requirements for an operational license. Over the 48-year span of hospital history, several other serious crises have occurred, yet God has always shown the path forward. Pray for the Bethesda board and the senior hospital leadership team as they seek God's leading and consider the options before them. Praise God, the oxygen generator purchased in September 2021 and shipped to Indonesia in January 2022 has passed through customs tax free and has now arrived at Bethesda Hospital. A specialized air compressor is now on order from a Jakarta supplier to complete the needed components to operate this oxygen generator. Bethesda Hospital Evangelism report Nov-Dec 2021: For the final two months of 2021, the Bethesda Hospital evangelism team had contact with 915 patients and family members.
